

	2022-2023
	EdD in Deaf Studies & Deaf Education
	Dr. Ashley Greene, agreene7@lamar.edu , (409) 242-6521

Respond here:

The program has undergone significant changes, starting with the development of a new mission statement that better aligns with its current objectives. The previous mission statement emphasized bridging the gap between the signing and deaf communities, preparing teachers, interpreters, and leaders in Deaf education, and addressing oppression. However, as the program has evolved to encompass broader goals beyond these specific areas, a revised mission statement has been adopted.

The new mission statement of the Department of Deaf Studies and Deaf Education (DSDE) reflects the program's commitment to providing research-based innovative learning opportunities that nurture students to become scholars, service providers, and advocates. This revised mission statement captures the multifaceted nature of the program's objectives and its emphasis on inspiring students to make meaningful contributions in their respective fields.

Additionally, the program's recent reporting period has demonstrated the successful outcomes of the efforts undertaken in the past three years. The program's assessment data, as indicated in the WEAVE report, reflects the achievement of many of the program's established goals and objectives. These positive outcomes affirm the effectiveness of the program's initiatives and highlight its commitment to continuous improvement and meeting the evolving needs of students and stakeholders.

In summary, the program has implemented a new mission statement that better reflects its current focus and aspirations. The reporting period has shown that the program's efforts over the past th

The department of Deaf Studies and Deaf Education (DSDE) cultivates and inspires students with research base innovative learning opportunities to become scholars, service providers, and advocates.

To become leaders in the field of research, students must engage in scholarly activities. Such scholarly activities include giving presentations at various conferences in the field and publish their research. Due to the

	publication opportunities. Such publications may include ASL translations, non-peer reviewed outlets, and peer-reviewed journals.	peer-reviewed journals.			Additionally, 2 students submitted grants.
