

Core Curriculum Annual Assessment

- Lab manuals for this course have been updated. In addition, lab manuals are written by department faculty and sold to students at a cost of \$25, which is not far above printing cost and which supports student success by reducing the financial burden of purchasing course materials.
- Using funding secured from a special grant by the Lamar University Provost, we increased the number of students per lab from 18 to 24. As each lab station has three students, lab sections now have a total of eight lab stations per section.
