### M.Ed. School Counseling

## Annual Program Report Template

Year:	2021-2022
Program:	M. Ed. School Counseling
Contact Person (include email & phone#)	Dr. Kimberly McGough (kmcgough@lamar.edu)

#### Summary of Continuous Improvement Efforts since Last Report

Provide a brief description of how assessment results have been used for program improvement. Point to a specific example of how an assessment provided the program with data it could use for improvement and what that improvement was, if possible, also show evidence of the improvement. You may look at data from the two previous academic years to support this case.

## Respond here:

In September 2021, the TExES (state certification exam) changed from the 152 to the 252. The passing result on the 152 in 2019-2020 was 94%. In the summer of 2021, the passing rate was the TExEs 252 was 90.7%. The passing rate on the new exam, the TExES 252 from September 2021-May 2022 was 100%, although the standard score has not been set by the Texas Education Agency.

It is important to note that the results from the first round of the Practice Exam for the 252 has been used as a benchmark for measuring internship students' readiness for the TExES 252 with the shifting of the competencies from the 152 to the 252. The passing rate for the first round of the 252 Practice Exam was set at 60 % (55 out of 90 questions answered correctly). There was an overall passing rate of 66%. There were nine competencies measured on the test

### Program Highlights Since Last Report

Identify and briefly discuss any programmatic curriculum changes made since the last report (e.g. new courses, course changes, SLO changes, course deletions).

# Respond here:

The TEXES 252 Practice Exam results in Spring 2022, indicate that Competency 002 (Diversity and Cultural Competence) had the lowest score (51%). During the 2022-2023 school year, the Multicultural Counseling Course included practice 252 questions to help improve results for Competency 002.

In Summer 2022, CNDV 5380 (School Counseling Residency) returned to face-to-face delivery after offering it online from Summer 2020-Spring 2022.

Starting in Fall 2022, a discussion board assignment was added to Practicum that provided students with an opportunity to respond to a sample constructed response question of 400-600 words in their initial post. Then, students will evaluate the responses of their peers in their peer responses and provide suggestions for improvement to their answers.

Table 1. Assessment Results and Analyses for Current Cycle.

STAGE 1: PLAN			STAGE 2: DO		STAGE 3: STUDY	
Departmental Student Learning Goal	Program Student Learning Outcome	Assessment	Assessment Method/Locati on	Benchmark Expectations	Data Results	Actions/Goals Based on Data Results* What do the data tell you? How will you use this data? How were data from the last cycle used to make changes during this cycle, and What were the results of those changes?
To have a nationally recognized school counseling program where students demonstrate knowledge and competence in core school counseling areas as evidenced by scores on certification examinations. Students who are preparing to work as school counselors will demonstrate the professional knowledge, skills, and practices necessary to promote the academic, career, and personal/social development of all PK 12 learners.	Students demonstrate an understanding of the theories and processes of effective counseling and wellness programs for individual students and groups of students. The certification exam (TExES 152/252) includes measures for effective counseling, wellness programs for individuals and groups of students.	School Counselor Certification Exam. Students' performance on the Certification Preparation Exam will be assessed during the Internship course. Rationale: The Professional School Counseling (PSC) program faculty utilize the results of this exam (TExES 152/252) to ensure that candidates are adequately prepared to fulfill the role of school counselor.	Pass the certification preparation exam with a minimum score of 75 during the Internship course. At least 80% of Lamar school counseling graduates will earn a passing score on the practice test and TExES School Counselor 152.	Pass the certification preparation exam with a minimum score of 75 during the Internship course. At least 80% of Lamar school counseling graduates will earn a passing score on the practice test and TExES School Counselor 152.	The results of the pretest for the 152 were evaluated in Summer 2021 for the Fall 2021 Internship students (N= 132) as the TExES 152 changed to the 252 in September 2021. See results below Under analysis.  There was an overall passing rate of 80 %.	No actions will be taken for the 152 as the test changed to the 252 in September 2021. Since the 252 is new exam and we didn't gain access to the representative exam from TEA until Spring 2022, we did not know how our students were going to perform on this new assessment. Using the results from Spring 2022, we have identified the competency with the lowest percentage (Diversity and Cultural Competence) to focus our attention.

collaboration and teamwork for the

personal/social/emot ional development in school settings. The TExES 152 measures competencies for personal/social, and emotional development of students in Domain 1: Understanding Students.

career, and personal/social development of students.

Exam will be assessed during the Internship course. Rationale: It is a requirement that school counseling students take the Certification Preparation Exam for the TExEs 152/252 during their Internship semester as determined by the program faculty of the Professional School Counseling (PSC).

Rationale: The

successful completion of the field experience course. faculty members of the PSC program review candidate progress from multiple sources including field supervisor feedback on their observations, attendance in group supervision, completion of course assignments, and successful completion of documentation being uploaded to Portfolium. If all course requirements are not met, the candidate (field experience student) will not pass their Practicum and Internship coursework.
